Dear Parents and Carers,

Residential trips have been an important part of the life of children who attend Northborough Primary for many years, and we are proud to be able to offer children residential experiences in their journey through the school.

In addition to residential visits in Key Stage 2, our aim is to offer every class a topic related class trip in each year from Foundation to Year 6, together with a range of enrichment experiences that children may experience at school or off-site.

Please see a range of some of these activities for each class below:

Year	Autumn	Spring	Summer

Year 6	Duxford Museum trip		Residential – Caythorpe

We will also hold whole school enrichment events across the year: Science week, the Life Education Bus, Sealed Knot Living History event, YDP and SOKE trust events, Sports Days, Performances, themed weeks in colour groups, John Clare local study, termly Church services and visiting Theatre groups for example, as well as many events using our Orchard area. Alongside these are a range of social and fun events that are organised by the PTFA. You will be notified of all of these events as they arise.

After careful consideration, we have decided to offer residential visits in Year 4 and Year 6 only, due to the increasing centre and transport costs, and being able to provide enough staff to support these visits.

We will continue to ensure that the children are getting as many enrichment opportunities and experiences as possible, and we are sure that you will continue to support the events that we have put in place.

Yours sincerely,

Mrs Boucher
